

January 2011 Newsletter

As MB Manufacturing moves into the new year we have begun the process to become ISO Certified. Promoting the adoption of a process approach when developing, implementing and improving the effectiveness of our quality management system, to enhance customer satisfaction by meeting customer requirements. We are excited to begin several of these new processes, while we see continued improvements in customer satisfaction.

In addition, MB Manufacturing has acquired the Smart Adjustable Solder Fixture from Fancort. These cost effective adjustable fixtures combined with our state of the art molded solder rails and a comprehensive array of highly functional accessories will enhance your machine soldering process. The Smart Solder Fixture is available aluminum and titanium. View our website for available sizes and accessories.

MB Manufacturing would like to welcome our new reps from Electronic Assembly Products to our team; John Johnson, Bruce Clark, Brad Kendall, Jahson Stone and David A. Lynch. We look forward to a long and prosperous relationship. Founded in January of 2002 by John Johnson, EAP differentiates itself from other representative agencies by approaching every customer as a partner in solving their process challenges. By finding the right solution to a challenge, EAP maintains a core confidence level among its customers, enabling it to act as a trusted extension of the internal resources needed to succeed.

Visit our website at www.mb-mfg.com to take a glimpse at the improvements we have made. We have many changes and additional informational pages planned for the near future.
