

## MB Manufacturing Press Release

MB Manufacturing Inc. • 1 Gwinnup Road • Blairstown NJ 07825 • Ph: 908-362-5588 • Fax: 908-362-5115

Two years ago MB Manufacturing relocated from Rockaway to beautiful Blairstown NJ. The move has paved the way for us to become a more innovative and flexible company. We now operate in a more spacious building, allowing us to better meet and exceed our customer's expectations. We are better equipped to accommodate large quantity orders, but still small enough to understand the very specific needs of each client. MB is currently working to become even more efficient by decreasing set up time, adding new procedures to our inspection process, and most importantly obtaining feedback from our customers. Clientele feedback is pertinent to the success of any company. If something didn't quite work, how can we serve you better? If something worked well, we'll use that knowledge to our advantage. We would like to take this opportunity to extend an open invitation to all of our customers to make an appointment for a visit.

MB Manufacturing is very proud to announce that we have recently been chosen as a Certified Supplier for AREVA. We have been a consistent supplier for the company for over 5 years. Out of 30,000 vendors, only 170 were chosen in North America to be honored at the AREVA Certified Suppliers event. On June 4 Mark traveled to Washington D.C. for the occasion and was presented with this award by CEO Anne Lauvergeon (pictured left with Mark and his wife Christine). In order to be recognized, each vendor had to meet a wide range of criteria concerning innovation, environmental protection, occupational safety and product quality. We have also been registered with the Office of Defense Controls Compliance, and we are ITAR certified. We are currently working diligently toward ISO certification, and hope to achieve that in the next few months. MB Manufacturing has already been recognized for our exceptional quality by various companies such as Raytheon, Celestica, ITT, and Texas Instruments.

MB Manufacturing welcomes its newest employee! Bringing over 30 years of experience to the job, Gil Repetto is an exciting new asset to our team. Though our staff remains small, what we lack in numbers we certainly more than make up for in skill and dedication. In closing, this newsletter is the first of many to be distributed monthly. Each month we will write about the new innovations happening at MB. If you would like to receive this newsletter, please subscribe by sending me an email at: [cs@mb-mfg.com](mailto:cs@mb-mfg.com)
